

# JEFFREY SHERREN SARMIENTO

## Full-Stack Web Developer

Novaliches, Quezon City, Philippines | jeffreysherren01@gmail.com | +63 924 579 4150

Portfolio: jeofff.github.io/Portfolio

---

### PROFESSIONAL SUMMARY

Full-stack web developer building responsive websites, PHP/MySQL systems, and admin interfaces for healthcare, wellness, and e-commerce clients. Comfortable owning a project end to end: front-end builds, back-end logic, database design, and CMS or platform setup on WordPress, Webflow, and Shopify. Recently completed a BSIT degree with a capstone project in VR-based educational software, and works with an AI-assisted development workflow (Claude, Copilot) to move faster without cutting corners.

### SKILLS

**Software Development:** Full-stack web development, PHP/MySQL systems, CRUD applications, admin panels and reporting tools, RESTful APIs

**Languages:** HTML5, CSS3, JavaScript, PHP, MySQL, React

**Platforms & CMS:** WordPress, Elementor, Webflow, Shopify, Wix, GoHighLevel (GHL)

**Tools:** Git, GitHub, Figma, Photoshop, Canva, Google Analytics

**Other:** Responsive and mobile-first design, UI/UX principles, web performance and SEO optimization, AI-assisted development (Claude, Copilot)

### EXPERIENCE

#### Lead Developer (Freelance) | PH Lancers / Socials By John

Nov 2025 - Feb 2026

Dasmariñas, Cavite (Remote)

- Led digital, creative, and technical work across client projects, including multimedia production and content creation.
- Provided technical support and troubleshooting for client-facing web projects under deadline pressure.
- Coordinated with teams and clients to scope project requirements and manage delivery timelines.

#### IT Technician / Developer | ITSU, Technological Institute of the Philippines

Jan 2026 - May 2026

Cubao, Quezon City

- Built the Automated Borrower's Equipment Application in PHP and MySQL to track equipment loans, monitor inventory, and send overdue notifications.
- Provided IT support in computer laboratories, including opening/closing labs and maintaining desktops, printers, and projectors.
- Supported lab organization and compliance with IT policies.

#### Web Developer (Freelance) | Socials By John

Jan 2025 - Mar 2025

Novaliches, Quezon City

- Built and supported web assets for a social media management and digital marketing agency serving aesthetics, med-spa, and e-commerce clients.
- Collaborated on content and campaign work aimed at improving client visibility and engagement.

#### Web Developer (Freelance) | Sammy Studio

Jun 2023 - Aug 2023

Remote

- Developed an e-commerce site with integrated Payoneer payment processing for a freelance client.

#### Web Developer (Volunteer) | We Are X

Jul 2023 - Aug 2023

Remote

- Contributed front-end development support as part of a short-term volunteer engagement.

### SELECTED PROJECTS

**JERSA ERP** (Enterprise Software)

Full enterprise resource planning platform covering HR, payroll, inventory, and point-of-sale, with two role-based dashboards built in vanilla JavaScript and a zero-backend, LocalStorage-driven data layer.

**Infinite Beauty Raquel** *(E-commerce, Washington DC)*

Beauty and self-care e-commerce site with a full product catalog, cart, and checkout, built with HTML, CSS, JavaScript, PHP, and MySQL.

**SPIRA Sales Corporation** *(Construction / Distribution)*

Corporate catalog site for a Philippine distributor of TOTO bathroom fixtures, built for contractors and developers researching product specs.

**Merak Wellness Center** *(Healthcare, Washington DC)*

WordPress and Elementor brand site for a therapy and alternative healing practice, designed for a calm, trustworthy feel.

**Maternal Fetal Specialist** *(Healthcare, Fredericksburg & Springfield, VA)*

WordPress and Elementor site for a maternal-fetal medicine practice, organizing dense clinical content for patients and referring providers.

**Lavish Rejuvenations** *(Healthcare, Washington DC)*

Landing page for a skincare and body-contouring clinic, built with HTML, CSS, and JavaScript to explain multiple treatment services and drive inquiries.

**BrightSmile Dental** *(Healthcare)*

Webflow build for a dental practice, structured to drive appointment bookings rather than passive reading.

**CoachKai Fitness** *(Professional Services)*

Webflow build for a fitness coaching brand, designed with a higher-energy visual presence per the client brief.

**SparkClean** *(Professional Services (Demo))*

Static booking-first landing page demo built with HTML, CSS, and JavaScript to test layout before a client committed to a full build.

**Automated Borrower's Equipment Application** *(Education / Internship)*

PHP and MySQL system for managing equipment borrowing: data entry, inventory tracking, automated overdue email alerts, and printable borrower slips.

**Pottery Immersive Atelier (PIA)** *(Capstone Project)*

VR pottery training and education system built in Unity with C#, featuring tutorial and quest modes, grading and feedback, and interactive VR mechanics. Completed and defended in partnership with Tahanan Pottery & Studio.

## EDUCATION

---

**Bachelor of Science in Information Technology**

*Technological Institute of the Philippines, Quezon City | Graduated 2026*

## SEMINARS & TRAININGS

---

- UI/UX Development, Online Platform (May 2023)
- Cyber Security Buff, TIP Quezon City (Apr 2024)
- Data Analytics, eRevolutika Electronics & Robotics Automation (Feb 2024)
- Cyber Warfare: Protecting Applications and the Networks that Deliver Them, BrightTALK (Oct 2024)
- Choosing the Right DDoS Protection in the Current Threat Landscape, BrightTALK (Aug 2024)
- Cybersecurity and AI: Managing the Evolution of the Threatscape, BrightTALK (Sep 2024)
- Network Modernization: AIOPS and a Bid for the Autonomous Network, BrightTALK (May 2024)
- Secured Blockchain Solutions, BrightTALK (Sep 2024)
